

Epson EH-TW6000

3D Capable, HD Home Theatre Projector

Bring the power of 3D right to your living room with the Epson TW6000. Immerse yourself in eye-popping 3D adventures, 2200 lumens colour and white light output, Full HD, 1080p performance and a remarkable contrast ratio of up to 40,000:1. Amazing audio with two powerful built-in 10W stereo speakers. This high-value home theatre projector also features great 2D performance. It's never been easier to entertain family and friends with a true-to-life 3D cinematic experience.

KEY FEATURES:

- **40,000:1 High Contrast Ratio** – Bright whites and deep blacks for stunning image quality
- **High Brightness 3D** – Full HD, 480Hz active shutter technology allows you to enjoy thrilling 3D adventures in the comfort of your own home
- **Installation Flexibility** – Auto vertical and sliding Horizontal keystone correction + zoom
- **Split Screen Feature** – Project two images side-by-side, making sure you don't miss out on any of the action
- **Captivating Sound** – Enjoy amazing audio with two built-in 10W speakers

Target Market and Positioning

The Epson EH-TW6000 is the latest high performance home theatre projector from Epson. Designed with ease of use in mind, the 3D ready Full HD projector can be set up within minutes. The Vertical and Horizontal keystone allows you to project from virtually any angle; while the built in speakers complete the immersive cinema experience.

FEATURES AND BENEFITS:

High Contrast Ratio

Featuring Epson's inorganic C2Fine D9 LCD panels, the EH-TW6000 delivers superb image quality and outstanding clarity. Blacks are truly black, meaning the audience can see every detail, just the way the director intended.

High Brightness 3D

A major hurdle in all 3D is maintaining brightness. Epson has addressed this by using a 480 Hz Active Shutter system rather than the traditional 240 Hz System.

Epson's 480 Hz drive system minimizes the blackout time of 3D glasses. The less time the lenses are closed, the more light can come through, resulting in a brighter image.

Installation Flexibility

A powerful 1.6x Optical zoom teamed with vertical and horizontal keystone correction makes projector placement a breeze. The TW6000 automatically corrects the image vertically. And for horizontal image correction just move the easy-slide control bar to make the necessary adjustments.

Split Screen Feature

Project two images (video or still) side-by-side from two different sources simultaneously. Choose from three layout options. You can swap the images as well as choose the source for audio.

Layout Option 1: 50-50% split screen

Layout Option 2: Main image on left

Layout Option 3: Main image on right

Captivating Sound – Enjoy amazing audio with two built-in 10W speakers
