Preliminary and Confidential

SONY

Key Technology

Side Shot™ 2 Digital Keystoning

Digital horizontal and vertical keystone adjustment capabilities with the press of a button to align the picture effortlessly. This technology allows you to place the projector off axis to the screen in order to save space in the center of the room.

Picture Modes

Choose from 3 preset picture modes that best suit the source and viewing environment (Standard/Dynamic/Cinema)

Cinema Filter

This filter enhances skin color fidelity and black level reproduction by structure of 25% reduction of green color element. We offer it to users as one of the picture adjustments according to their preference and sources.

Wide Modes

Allow the user to toggle through seven wide modes using the remote control. For 4:3 sources the choices are NORMAL THROUGH, NORMAL, FULL, ZOOM, SUBTITLE, and WIDE ZOOM. For 16:9 sources the choices are FULL THROUGH, NORMAL, and FULL

Specifications

Inputs and Outputs

- Composite Video Input
