

BARCOGRAPHICS 2100

Single Panel, High Resolution LCD Graphics Projector

The BARCOGRAPHICS 2100 is a compact, portable high resolution single panel LCD projector. Equipped with an advanced Pixel Map Processor and a high resolution XGA LCD panel, the BARCOGRAPHICS 2100 is compatible with most of today's PC graphics boards and electronic workstations with resolutions up to 1,280 x 1,024 pixels. The wide compatibility, fast, easy set-up and extreme versatility of the BARCOGRAPHICS 2100 make it a powerful display device for high resolution presentations, simulation, CAD/CAM and process control applications.

Plug & Play graphics projector

The BARCOGRAPHICS 2100 is truly a 'Plug and Play' portable large screen graphics projector.

- 575 W metal-halide lamp
- Active matrix colour LCD panel with XGA resolution (1,024 x 768 pixels)
- Screens up to 6 m (20 ft.) wide
- Built-in stereo audio amplifier and loudspeakers (2x10 W)
- A wide range of lens options are available

Wide compatibility

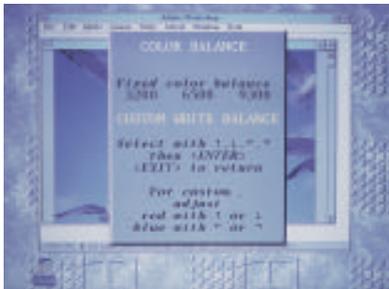

- All NTSC Video sources in Composite, S-VHS or RGB format
- All PAL/SECAM Video sources in progressive scan format
- All computer graphics formats from CGA, EGA, VGA, SuperVGA (800 x 600), XGA (1,024 x 768) up to S-XGA (1,280 x 1,024)
- Electronic workstations with resolutions up to 1,280 x 1,024 pixels
- Most computer sources with a pixel clock <135 MHz

Extremely user-friendly and versatile projector

- Logical on-screen menus, accessible through a convenient backlit infrared remote control unit
- User adjustable geometry corrections: Image size, shift, keystone,...
- Extensive user facilities including freeze and built-in test patterns
- RS232 serial communication input
- Table or ceiling mount configuration
- Front or rear screens

Compact, high resolution LCD graphics projector

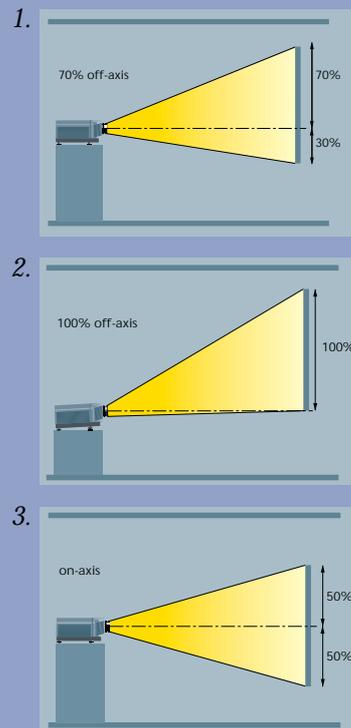

Logical menus and intuitive on-screen displays greatly simplify control and set-up of the BARCOGRAPHICS 2100 .

Flexible installation configurations

The BARCOGRAPHICS 2100 can be used in front or rear screen installations, and in table or ceiling mount configurations. The projector can be used in a horizontal as well as vertical position. The BARCOGRAPHICS 2100 is factory adjusted for a 70 % off-axis projection.

The unit can be adapted for use in a 100 % off-axis configuration by means of additional leveling feet (only with SD(1.6-1.9:1) zoom lens).

An optional Off-axis to On-axis Kit converts the BARCOGRAPHICS 2100 for on-axis projection, particularly useful for rear-screen installations.

Logical on-screen menus
The BARCOGRAPHICS 2100 features intuitive on-screen menus, accessible through a convenient backlit infrared remote control unit.

Extensive user facilities including image size, shift, keystone, freeze and built-in test patterns provide superior control and unmatched versatility.

Intelligent Pixel Map Processor

The BARCOGRAPHICS 2100 is equipped with a patented, high-performance Pixel Map Processor. This Pixel Map Processor converts all incoming signals to the full resolution of the LCD panels in order to maximise the light output and resolution of the projector.

The Pixel Map Processor calculates every pixel to be displayed by means of state-of-

the-art digital signal processing techniques. The result is optimal picture quality, with smooth and exceptionally readable characters.

The integration of the Pixel Map Processor enables the BARCOGRAPHICS 2100 LC to display a wide range of computer data and graphics standards including CGA, EGA, VGA, SuperVGA (800x600), XGA (1,024x768) and S-XGA (1,280x1,024), and electronic workstations with resolutions up to 1,280x1,024 pixels without any loss of information.

(1) Putting unit in 100% off-axis configuration influences corner sharpness.

Technical specifications

Light output
700 lumens full white
550 ANSI lumens
Brightness uniformity:
> 70% for the total screen area.

LCD panel
Single 10" active matrix colour
LCD panel with XGA resolution
(1,024x768), selected for
a minimum of pixel defects.⁽²⁾

Lamp
575 Watt metal-halide 'hot
restrike' lamp
Expected lifetime: 1,000 hours⁽³⁾

Available lenses

- Fixed focal length lenses are available with a very short throw ratio of 0.8:1.
- A variable focus lens is available with a throw ratio between 1.6:1 and 1.9:1.

Lens type	Order nr
QSD (0.8:1) ⁽⁴⁾	R9829640
QSD (1.2:1)	R9829730
QSD (1.6-1.9:1) zoom	R9829660

A convenient backlit infrared remote control unit provides quick and easy access to all adjustments of the BARCOGRAPHICS 2100.

The BARCOGRAPHICS 2100 has a built-in source switcher to accommodate a wide range of video and computer data sources.

Screen sizes

Min.: 1.0 m x 0.75 m (3.2' x 2.4')
Max.: 6.0 m x 4.5 m (20' x 15')

Contrast ratio

>200:1 (on 5x4 B/W checkerboard)
>400:1 (full white/full black)

Inputs

The projector has 5 inputs:

- Port 1: Video on BNC connector
- Port 2: Video on Cinch (RCA) connector
- Port 3: S-Video on 4-pin mini-DIN connector
- Port 4 & 5: RGB analog input on 5 BNC connectors, sync on green or separate sync, sync can be 2-level or 3-level
- 3 stereo audio inputs on Cinch (RCA) connectors
- RS232 input (D9 connector) loop-through for projector control through a PC or other control unit
- Communication input (D9 connector) for peripherals
- Mini-jack (3.5 mm) for wired remote control

Remote control

All controls are accessible through a soft-touch panel or a user-friendly backlit infrared remote control.

- Source switching
- User settings per source
- Installation and service adjustments
- Audio controls (infrared remote only)

Compatibility

The BARCOGRAPHICS 2100 is compatible with:

- All NTSC Video sources in Composite, S-VHS or RGB format

- All PAL/SECAM Video sources in progressive scan format
- All computer graphics formats from CGA, EGA, VGA (640x480), SuperVGA (800x600), XGA (1,024x768) up to S-XGA (1,280x 1,024)
- Most Macintosh computers
- Electronic workstations with a resolution up to 1,280 x 1,024 pixels
- Most computer sources with a pixel clock <135 MHz

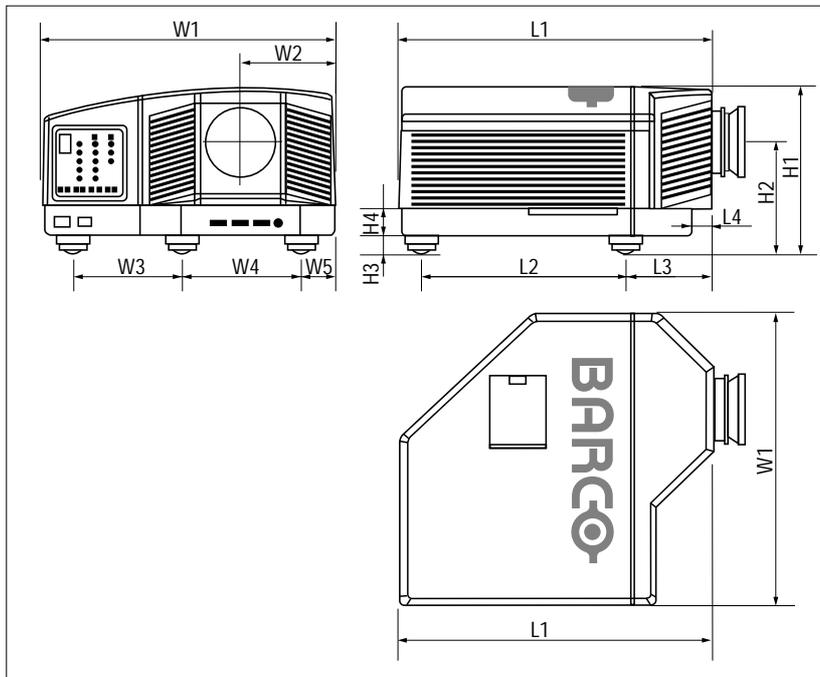

Special features

- Built-in freeze facility
- Extensive geometry corrections including image size, shift, keystone,...
- Internal test patterns (outline, colour bar, checkerboard,...)
- External auto-diagnostics with 2 x 7 segment LED display for source selection and error codes
- Adjustable leveling feet
- Intuitive on-screen display: Installation and service screens, barscale display of user settings, on-screen display of selected source
- Colour temperature adjustment (3200K, 6500K, 9300K or custom)
- An off-axis to on-axis kit is available which can convert a BARCOGRAPHICS 2100 for on-axis projection, ideal for rear-screen applications

(2) Further information is available on request.

(3) For applications with projectors in continuous operation, BARCO offers an optional Long Life Lamp, which provides 2,000 hours lifetime with approximately 10 % reduction in initial luminance.

(4) On-axis only.

Dimensions	mm	inch
L1	642	25.28
L2	405	15.94
L3	201	7.91
L4	63	2.48
W1	603	23.74
W2	195	7.68
W3	225	8.86
W4	245	9.65
W5	68	2.68
H1	335	13.19
H2	224	8.82
H3	35	1.38
H4	55	2.17

- Ceiling mount 2/3000
 - With pulley system R9829610
 - Without pulley system R9829611
- 575 W metal-halide lamp R9829510
- Long life lamp⁽³⁾ R9829600
- Kit off-axis to on-axis R9829700
- Service tool kit R9829530
- Windows Communication software R9829670

Audio

- Built-in stereo audio amplifier (2 x 10 W rms)
- 2 x 10 W loudspeakers
- Stereo audio output on 2xCinch (RCA) connectors

Power consumption
750 watts

Weight⁽⁵⁾
 Net weight 24 kg (53 lbs)
 Shipping weight 41 kg (90 lbs)⁽⁶⁾

Safety regulations
 The BARCOGRAPHICS 2100 complies with UL1950 and EN60950

Accessories included

- Infrared remote control
- Owner's & installation manual
- Power cord with CEE (7)VII plug

Electromagnetic interference
 The BARCOGRAPHICS 2100 complies with FCC Rules & Regulations, part 15 Class B and CE EN 55022 Class B

Order information
 BARCOGRAPHICS 2100 R9001150

Warm-up time
 Less than 2 minutes to meet full specifications

RCVDS 05 source selector to connect a wide range of video, data and graphics sources to the projector
 230 V: R9827880
 120 V: R9827889

AC power
 Switchable between 120 VAC and 240 VAC

Remote infrared receiver R9827515

(5) Without lens.
 (6) With MAGIK interface.
