### NOW IT'S TRULY PERSONAL!

When you want the best in advanced data video technology in a compact, super-light weight design, the answer is easy: The In Focus LP420 all-in-one ultraportable projector. It's the first in its class!

There's no compromising on features or performance with the ultra lightweight, super trim In Focus LP420. You get outstanding resolution, bright images and crisp contrast that let you project easily in any light — no need to pull the shades down.

You see the smoothest, film-like video playback — better than a large-screen projection TV, thanks to Digital Light Processing™ (DLP) display technology from Texas Instruments. Precision optics, powerful lamp and built-in speaker round out a complete, full-featured multimedia projection solution, all in an unbelievably portable package. It's so easy to use, anywhere you go. Take it on the road, take it to the office, — you'll even want to take it home for fun.

### WORLD'S EASIEST SET-UP

CableWizard™ Lite connects the projector to your computer or video source, while smart Auto Sensing instantly identifies the video signal and automatically calibrates the picture for you. Exclusive In Focus Presents™ software synchronizes your computer to match the projector's optimal presentation settings with just the click of a button. You can even present without a computer, using the optional In Focus LiteShow™ Pro Presentation Player. Connect the In Focus LP420 to a digital video disc (DVD) player, VCR or video game station, and you'll enjoy big-screen projection of movies, TV broadcasts, video games and more.

### PERSONAL PLUS™ ACCESSORIES PACK AVAILABLE TOO!

Get a Personal Plus accessories pack and add even more versatility to your mobile presentations. Personal Plus includes exclusive In Focus CableWizard II for expanded connection options, (video loophrough, mouse control), an Executive Remote Control, and a cozy dual laptop/projector bag for an all-in-one bag solution.
