

# **Powerful wireless installation projector**

With built-in wireless, the Optoma EX765W is perfect for large room installations. Its high performance combined with a brightness of 4000 ANSI Lumens allow it to achieve crystal clear images that can be viewed from a great distance.

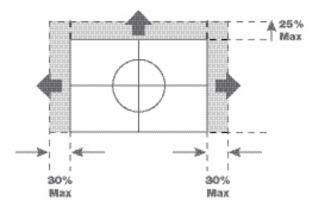

The introduction of PureShift technology and 1.6x zoom gives your projector outstanding placement flexibility and with a 1.6x zoom, making the EX765W an ideal replacement for existing ceiling mounted systems.

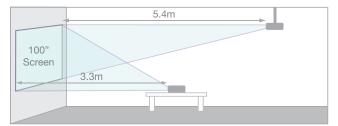

The environmentally friendly EX765W has energy saving features including <1W standby mode and auto power off saving you both time and money. Long lamp-life of 4000hrs combined with our unique Optoma Colour guarantee ensures hassle-free, long-lasting projection.

#### **1.6X ZOOM AND PURESHIFT - EASY INSTALLATION**

The EX765W can project a 100" diagonal image from any distance between 3.3m and 5.4m. The PureShift system provides a lens shift function that can be used to adjust the position of the projected image either horizontally or vertically within the range detailed in the diagrams below.

When replacing existing projectors, the 1.6x zoom and PureShift system will greatly increase your installation flexibility.

Above diagrams for guide purposes only

#### CONTROL

The extensive RS232 command set makes it simple and easy to control the EX765W with any control system.

AMX Compatibility – Dynamic Discovery Protocol is incorporated into the EX765W. This feature allows for easy installation with AMX control systems.

#### **FEATURES**

- Preset display modes
- Easy to use remote with laser pointer, mouse control and direct source selection
- Direct power on and Auto power off
- Customised start-up logo

#### WIRELESS PRESENTING

Project presentations and video files cable-free with the wireless features of the EX765W. Save time with simple switching between multiple PC sources. Just download the software and begin presenting instantly.

Secure wireless projection with WEP 64/128-bit and session login security protection to prevent unauthorised access to information on the wireless transmission.

- Transfer and display presentation material or stream video content (up to 720p).
- Multiple display of up to 4 different images to one screen

Magnify and display with sound, streamed video from the internet

### **PROJECTOR CONTROL AND MANAGEMENT**

Built-in network (LAN) provides a host of features to control, monitor and send information to a projector using a web browser. Using a unique IP address, you can share and access a projector through an existing network.

 Control and manage up to 99 projectors individually or combined (using a master PC/laptop) in a installation such as a university or office.

• Internet and LAN access through RJ45 connection - single access point. It can also function as DHCP server for your network.

• Preset the projectors to automatically turn on/off at specified times during the day or during the week.

 Alert emails can be sent to a registered address to advise on issues such as a lamp replacement. IT managers can be kept up to date 24/7 about the status of a projector on the network. This reduces the cost of managing multiple projectors in a building.

### **EXTENSIVE CONNECTIVITY**

This native XGA projector accepts a wide variety of computer and video input signals. Connectivity includes: HDMI, dual VGA (SCART and Component), S-Video, Composite, RS232 and RJ45.

Three selectable audio inputs for individual PC and video connections enable the EX765W to function as an audio switcher and volume controller, thereby eliminating complicated and costly additional audio hardware and cabling.

#### **CLEAR, FOCUSED IMAGES**

Technology from Texas Instruments produces a stunning 2500:1 contrast ratio for pin sharp graphics and crystal clear text. Crisper whites, ultra-rich blacks make images come alive and text easier to read - ideal for business and education presentations.

<sup>‡</sup>Simulated Image

### **AMAZING COLOURS**

The EX765W incorporates BrilliantColor™ technology to produce stunningly bright images with perfectly balanced life-like colours.

Preset display modes allow you to achieve a perfect image in a variety of different environments.

### **COLOUR GUARANTEE**

We are so confident that the EX765W image colour quality will remain as good as the day you bought it that Optoma will guarantee it for five years.

### MAINTENANCE FREE = LOWER TOTAL COST OF OWNERSHIP (TCO)

DLP® technology ensures lower cost of ownership, longer life and improved reliability compared to other technologies.

The filter-free projector design means no more regular filter cleaning or replacements, saving you time and money.

#### **ENVIRONMENTALLY FRIENDLY**

The EX765W incorporates energy saving features to reduce power consumption and extend the lamp life.

The timer control functions can automatically switch the projector off to standby mode <1W, conserving power and extending the lamp life to an astonishing 4000 hrs\*\*.
