## PLC-XP41/L

XGA Portable Multimedia Projector

### IMPRESSIVE 3300 ANSI LUMENS OF BRIGHTNESS

A 275W NSH lamp combined with Sanyo's new optical system delivers an impressive 3300 ANSI lumens of brightness.

### INTELLIGENT DIGITAL SHARPNESS CONTROL

This high-performance image processing technology analyzes the incoming signal and controls the sharpness of picture data only, while text and other elements that are already sharp are left unprocessed.

### ECO MODE FOR INCREASED LAMP LIFE

The PLC-XP41/L features a new Eco mode which switches the lamp ballast power from 275 watts to 220 watts, increasing lamp life while decreasing the brightness level approximately 20%.

### 3D DIGITAL PROGRESSIVE CIRCUIT

3D sampling for each pixel along with SANYO's unique movement detection algorithm program lead to increased vertical and diagonal resolution on moving video images.

### NETWORK CONNECTIVITY

Sanyo's new optional PJ-Net Organizer system allows for operation and administration of a projector via a network. Presentations can be run, projector status can be checked, and projector functions can be controlled through a web browser. An alarm and notification can be automatically sent via E-mail whenever the projector encounters a problem, allowing the administrator to act quickly to resolve the issue.

### HDTV COMPATIBLE

The SANYO PLC-XP41/L is High Definition Television Compatible, accepting the 1080i, 1035i, 720p, 575p, 575i, 480p and 480i HDTV resolution standards.

### DIGITAL KEYSTONE CORRECTION

SANYO's new X-Y digital keystone correction feature compensates for angled projector placement by digitally altering the pixels to produce undistorted images both horizontally and vertically.

### WHISPER QUIET FAN

The PLC-XP41/L employs a new Whisper Quiet fan producing an amazingly low noise level of only 35 dBA (Eco mode).
