BenQ's CP220 has been born to fulfill your mobility needs, with the best combination of weight and performance. The optical module is designed by Carl Zeiss and the projector performs an astounding 2200 ANSI Lumen brightness, with an XGA resolution of 1024 x 728 and a 2000:1 contrast ratio, delivering superior results. The CP220 weighs only 1.8kg and is the size of an A4 piece of paper; it's the perfect companion for your briefcase or backpack.

Worrying about the colour performance among the mobile projectors? Using BenQ's exclusive colour matching technology, the CP220 ensures accurate colour reproduction by precisely reproducing the colours of the original input image. Still waiting for the projector to cool off before unplugging the machine? The CP220 also includes an "Off and Go" function, so you don't have to wait around and waste your time whilst your projector cools down.
