- Remote Mouse Receiver
- Power Cable
- VGA Computer Cable
- Lens Cap
- Soft Carrying Case
- Warranty Card

* See back cover for details on the "Triple P" program.

CANON TECHNOLOGY

BENEFIT FROM OUR OPTICAL EXPERIENCE

The heart of any projector is its optics. Nearly 70 years of expertise in designing and crafting precision lenses for photography, broadcast TV cameras and camcorders goes into every lens we manufacture. Our projector lenses deliver remarkably broad zoom ranges and incredibly short throw distances and consistently produce images with superior color and clarity.

CANON THROW DISTANCE CHART

LV-7255

Projection Image Size		30"	40"	100"	150"	200"	300"
Projection Distance	Wide	-	3.2'	8.3'	12.4'	16.6'	25.0'
	Tele	3.8'	5.1'	12.9'	19.4'	-	-

MAXIMUM IMPACT IN MINIMUM SPACES

Normally, a projector must be positioned far away from a screen to project a large image. This is not the case with Canon projectors. They feature wide-angle zoom lenses, allowing you to achieve big, vibrant images from as little as 8.3 feet (2.5m), making them ideal for a small conference room.

* LV-7255 only.

OPTIONAL ACCESSORIES

Replacement Lamp LV-LP22

Ceiling Mount Adapter LV-CL07

DVI Cable LV-CA29

For LV-7255

Replacement Lamp LV-LP24
