

■ Specifications

		NP64	NP63	NP54	NP43
DLP Chip		0.55 inch DLP (Aspect Ratio 4:3)			
Resolution*1		1024 x 768 pixels			
Lens		Manual Zoom (Zoom ratio 1 to 1.2) / Auto Focus*2 (Effective Range : 1.5m to 5.5m), Manual Focus F2.2-2.34, f=20.4-24.5mm			
Lamp (Eco Mode On / Eco Mode Off)		170W / 220W AC		170W / 200W AC	
Lamp Life*3 (Eco Mode On / Eco Mode Off)		3500H / 2500H			
Image Size (Projection Distance)		33 to 300 inch (1.44m to 13.45m)			
Colour Reproduction		16.7 million colours simultaneously, Full colours			
Light Output**4		Eco Mode Off 3000 ANSI lumens		Eco Mode On 2600 ANSI lumens	
Contrast Ratio (White / Black)*5		1600:1			
Maximum Resolution		UXGA (1600 x 1200) with scaling technology			
Scan Rate		15kHz to 100kHz (RGB : 24kHz or over)			
Keystone Correction		50Hz to 120Hz (Signals with higher than refresh rate 85Hz support resolutions of 1024 x 768 or lower.)			
Input Terminals		Auto/Manual Approx. ±Max 40 degrees			
Input Terminals	1 Computer Input	VGA, SVGA, XGA, WXGA, SXGA, SXGA+, UXGA RGB : 0.7Vp-p/75Ω H/V Sync : 4.0Vp-p/TTL Level Composite Sync : 4.0Vp-p/TTL Level Sync on G : 1.0Vp-p/75Ω(with Sync) Negative Polarity			
		Stereo L/R 0.5Vrms/22kΩ or over			
	1 Component Input	Y : 1.0Vp-p/75Ω(with Sync) Cb, Cr (Pb, Pr) : 0.7Vp-p/75Ω Compatible signals : 480i, 480p, 720p, 1080i/60Hz, 576i, 576p, 1080i/50Hz DVD Progressive (50/60Hz)			
		Same as Computer IN			
1 S-Video Input	Y : 1.0Vp-p/75Ω C : 0.286Vp-p/75Ω				
	Same as Computer IN				
1 Video Input	Compatible Video : 1.0Vp-p/75Ω Compatible signals : NTSC/NTSC4.43/PAL/PAL-M/PAL-N/PAL-60/SECAM				
	Same as Computer IN				
USB Port		Type A		Type A	
Wireless communication		USB2.0 (for USB memory) Supports Bluetooth® wireless communication technology (Connect optional NP01BA*6 adapter to the USB port)		USB2.0 (for USB memory) Supports Bluetooth® wireless communication technology (Connect optional NP01BA*6 adapter to the USB port)	
Control Terminal		PC Control		1 Mini DIN-8Pin	
Built-in Speaker		0.3W Monaural			
Quietness (Eco Mode On / Eco Mode Off)		32dB / 37dB			
Environment		Operational Temperatures 5°C to 40°C ([ECO MODE] is set automatically to [ON] at 35°C to 40°C / [ECO MODE] is set automatically to [ON] at 30°C to 40°C when used in HIGH ALTITUDE), 20% to 80% Humidity (Non-Condensing)			
Power Requirement		Storage Temperatures -10°C to 50°C, 20% to 80% Humidity (Non-Condensing)			
Input Current		NP64 : 100 to 240V AC, 50Hz/60Hz	NP63G/NP63+ : 200 to 240V AC, 50Hz/60Hz	NP54G/NP54+ : 200 to 240V AC, 50Hz/60Hz	NP43 : 100 to 240V AC, 50Hz/60Hz NP43G/NP43+ : 200 to 240V AC, 50Hz/60Hz
Power Consumption	Eco Mode Off	100 - 130V	292W	287W	268W
		200 - 240V	277W	272W	255W
	Eco Mode On	100 - 130V	223W	221W	224W
		200 - 240V	213W	212W	214W
Power-saving Mode	100 - 130V	3.2W			
	200 - 240V	3.7W			
Heat Dissipation		996BTU (Max)	979BTU (Max)	914BTU (Max)	908BTU (Max)
Dimensions (WxHxD)		246mm x 72mm x 182mm (Not Including Protrusions, with Lens Cover Open)			
Weight		1.7kg			
Accessories		Remote control, Signal cable (MiniD15-MiniD15), Power cable, Soft case, User's manual (CD-ROM), Quick setup guide, Important information			
Regulations		UL Approved (UL 60950-1), Meets FCC Class B Requirements C-UL Approved (CSA 60950-1), Meets DOC Canada Class B Requirements IEC60950-1, Meets AS/NZS CISPR 22 Class B KC (safety : K60950-1, EMC : K00022, K00024, K61000-3-2) GB4943, GB9254, GB17625.1 Gost R 60950-1, 51318.22, 51317.3.2./3.3.			

\*1 : Effective pixels are more than 99.99%.  
 \*2 : Auto focus functions are accurate within the range of approximately 1.5m to about 5.5m. If the throwing distance is 1.5m, the screen size is 33 inches, while at a distance of 5.5m, the screen size is 149 inches. If the distance from the projector to the screen exceeds 5.5m, the focus must be adjusted manually. Depending on the colour of the screens or other environmental conditions, the operational range may be narrowed or the equipment may not operate properly. If a transparent screen is used, malfunctions may occur. Obstacles between the screen and the projector may cause the focus sensor to malfunction. When the main unit is moved slowly, this function may not activate. If the screen is moved, this function may not activate.  
 \*3 : Lamp life is defined as the average time span for the brightness of the lamp to be reduced by half, it does not refer to the warranty period for the lamp.  
 \*4 : This is the light output value (ANSI lumens) when the [PRESET] mode is set to [HIGH-BRIGHT]. If any other mode is selected as the [PRESET] mode, the light output value may drop slightly.  
 \*5 : Compliance with ISO21118-2005  
 \*6 : The Bluetooth® USB adapter (NP01BA) is a dedicated adapter for our projectors. The USB adapter (NP01BA) may not be available in some regions.  
 All specifications are subject to change without notice.

■ Throwing Distance and Image Size

Screen Size (inch)	Throwing distance(m)		Bottom Height(cm)
	Wide	Tall	
33	-	1.44	7.0
40	1.45	1.76	8.5
60	2.20	2.66	12.7
80	2.94	3.56	16.9
100	3.69	4.46	21.2
120	4.43	5.36	25.4
150	5.55	6.71	31.8
180	6.67	8.06	38.1
200	7.42	8.96	42.4
240	8.91	10.75	50.8
300	11.14	13.45	63.6

The values in the tables are design values and vary.

■ Dimensions

■ Soft Case (basic accessory)

■ Options

Replacement lamp NP09LP (for NP64/NP63) | Replacement lamp NP08LP (for NP54/NP43) | Ceiling mount kit NP02CM | Bluetooth® USB adapter NP01BA (for NP64/NP54)

■ Remote Control

■ Terminal Panel

⚠ The projector can be unplugged during its cool down period after it is turned off. Parts of the projector will become heated during operation. Use caution when picking up the projector immediately after it has been operating. Use caution when putting the projector in the soft case immediately after the projector has been operating. The projector cabinet is hot.

Ultra Portable Projector

NP64/NP63/NP54/NP43

Auto features to make set up quick and easy.

**With the auto focus function, the projector can be set up easily and quickly.**

1. Insert the power cord into the outlet.
2. Set the projector in the proper position.

Focus sensor

3. Start projecting images by automatically adjusting the focus and correcting any trapezoidal distortion.

projection starts immediately after inserting the power cord into an outlet.

**Auto power on**

By inserting the power cord into an outlet, projection will start immediately without pressing the power button. If the initial input selection is set to Auto, simply by turning on the power, the projector automatically judges the input signal and projects the images.

manual focus adjustment is not required

**Auto focus**

When turning on the power, adjusting the zoom operation, or removing the main unit, the focus sensor measures the distance between the projector and the screen and adjusts the focus of the projected images automatically.

correcting any trapezoidal distortion in the projected images

**Auto Vertical Keystone Correction**

If the projector is installed at an angle to project images on a screen, it may result in trapezoidal distortion of the projected images. In this case, the acceleration sensor built into the main unit senses the inclination of the unit in the vertical direction and then corrects for any trapezoidal distortion in the projected images automatically to project square images. (+/- 40 degrees from the projection angle).

**A sliding lens cover is employed**

The opening and closing of the lens cover is connected to the AV mute function, so when the lens cover is closed during projection, the image and sound are stopped. This is a very useful function when you want to stop the use of the projector during a meeting.

**Carbon meter for visualizing ecology**

The projector employs the Carbon Meter indicating the reduced amount of CO2 emissions in Eco Mode. Visually confirm the numerical value indicating the reduction in CO2 emissions in comparison with Eco Mode Off operation.

**Direct power off function makes it possible to put the projector away very quickly**

It is possible to turn off the power of the projector by using the power supply tap with a switch during projecting images or after turning off the main power even if the cooling fan is still operating. Since it is not necessary to wait for the cooling fan to stop, the projector can be promptly put away.

**Capable of projecting on a large screen in a wide venue even with a compact body\***

\* : Depending on the use environment

**NP64** Supports USB memory

3000ANSI lm | XGA | 1.7 kg

**NP63**

3000ANSI lm | XGA | 1.7 kg

**NP54** Supports USB memory

2600ANSI lm | XGA | 1.7 kg

**NP43**

2300ANSI lm | XGA | 1.7 kg

- Wall Colour correction adjusts the colour tones when images are projected on a wall.
- The lamp life has been extended by introducing the switchable lamp mode.
- The mouse operation on a PC can be made through the remote control.
- Security function prevents unauthorized use
- Low noise design
- Employing the built-in monaural speaker

NEC

AUTO FOCUS

ZOOM

A portable, compact body with sufficient brightness for large screen presentations in large conference rooms.

Light and easy-to-use, the projector is a convenient business tool for use anywhere, anytime.

**Lightweight compact body for easy transport**

**Projecting images with more vivid colours**

By employing the colour wheel with six segments (red, green, blue, cyan, white and yellow) and BrilliantColor with superior reproducibility of neutral colours, images of natural scenery can be projected more vividly. Furthermore, variable colour reproduction according to the purposes of use is available by employing Variable Illumination, a technology varying the lamp intensity being irradiated to the respective segments of the colour wheel. NEC provides a setting that emphasizes the colour yellow.

The above illustrations are for display purposes only and differs from the actual product.

**Includes a remote with the control ID registration function, which allows operation of multiple projectors with a single remote.**

**USB Memory Viewer Function is employed (NP64/NP54)**

Project image data saved on a USB memory device using the viewer function of the projector. Turn the projected images and change the sequence of display directly with the projector. Since the time for switching thumbnail indications and playing the slideshow automatically can be set in advance, project images flexibly depending on the occasion.\*1 Furthermore, by connecting the optional Bluetooth® USB adapter (NP01BA)\*2 to the projector, images can be transmitted to the projector from a PC or mobile phone equipped with the Bluetooth® wireless technology.\*3

\*1: Image formats such as GIF, JPEG, PNG, and BMP can be projected.  
 \*2: The Bluetooth® USB adapter (NP01BA) is a dedicated adapter for our projectors. The USB adapter (NP01BA) may not be available in some regions.  
 \*3: It is impossible to save the received images. Confirm that the device transmitting images supports the profile of the Bluetooth® USB adapter (NP01BA) by referring to the operation manual of the transmission device in advance.
