Acer S5201M

The Acer S5201M promotes better collaboration, communication and learning by allowing the audience to draw or write on the projected image from anywhere in the room using the Acer SmartPen and intuitive bundled software. The ultra-short-throw feature eliminates shadowing and enhances viewing comfort. The S5201M is DLP® 3D Ready, able to present seamless 3D visuals. What's more, this professional-level projector offers remote monitoring, control and reporting via LAN or Wi-Fi®.

# Interactive collaboration, ultra-short-throw flexibility

- Up to 4,000-hour lamp life Automatic safety shutdown

#### Acer ColorBoost II+

Acer ColorBoost II+ is an advanced technology that refines waveform to improve color performance based on lamp spectrum and color wheel properties. ColorBoost II+ (1) improves natural color temperature to achieve optical color balance, and (2) enhances color brightness according to content by working with Acer eView Management, which provides scenario modes with a color-specific refined waveform.

#### Acer SmartPen

Using this special pen, anyone in the audience can draw or write on the projected image from anywhere in the room for more interactive meetings and enhanced learning. The ergonomic design makes it easy to hold and use, while a convenient PowerPoint® menu allows users to control slide presentations without a keyboard

#### Acer ColorSafe II

Acer projectors featuring ColorSafe II are virtually immune to color decay, such as the yellow or green tint on images displayed by some projectors that have been used for extended periods of time. Acer projectors take advantage of DLP® technology to guarantee picture integrity despite prolonged use. Extended lifespan and consistent image quality lower total cost of ownership and translate to big savings.

#### Acer EcoProjection

Acer EcoProjection is a complete environment-friendly power management solution that reduces standby power consumption by up to 50%, from 5 W to 1 W. Also featured in the Acer EcoProjection suite is Acer ePower Management for customized power-saving configurations.
