

Epson EB-G5650W

DATASHEET

A large venue installation projector with WXGA native resolution, plus wireless connectivity, lens and placement options.

With a WXGA native resolution, this is the perfect large venue installation projector to present larger-size information and images. With a fast wireless connection, a broad selection of EasyMP Network functions plus a powerful 4,500 lumens white and Colour Light Output (CLO), this is ideal for presenting in universities and at conferences.

This model comes with a standard lens.

Get a wider picture: See more of the presentation with the WXGA native resolution. Ideal for spreadsheets and data, audiences will see everything as it is displayed on a widescreen computer as this format offers 30% more pixels than XGA.

First-class picture quality: Audiences will enjoy perfect images, natural colours and brightness of 4,500 lumens white and Colour Light Output thanks to Epson's 3LCD technology. And for deeper blacks, experience a high contrast ratio of 2000:1.

Wireless connectivity: Wireless connection (802.11 a/b/g).

EasyMP Network & Control: Monitor the status of your projector, email the administrator and set up alerts, so the projector emails the administrator in case of any issues. You can also broadcast a message to the network with the included EasyMP Network Projection software.

Split screen: Compare and contrast data such as graphics or worksheets.

Straightforward set-up: Keep installation simple with the centrally positioned lens, while placement options are broadened with the vertical and horizontal lens shift. The bayonet mount and wide 1.8x zoom ratio with the standard lens make positioning the projector a hassle-free process.

Reliable and low maintenance: Product durability is assured while total cost of ownership is kept to a minimum with the C²Fine Inorganic LCD panel and long-lasting lamp.

KEY FEATURES

- WXGA resolution - Native widescreen resolution
- Ultra-bright - 4,500 lumens white and CLO
- Get connected - EasyMP Network Projection features
- 3LCD technology - Exceptional images even in daylight
- Lens included - Comes with standard lens
