

# Epson EB-420 & EB-430 Projectors

DATASHEET

The Epson EB-430 and EB-420 XGA short-throw projectors with optional interactive unit are the perfect partners for teachers. Their impressive short-throw capabilities allow them to be mounted closer to the screen, which means less shadows when presenting.

Delivering high-quality presentations, these projectors have a White and Colour Light Output that gives a clear picture, even in the sunniest classroom. Their throw ratio of 0.55:1 means that you can enjoy the comfort of short-throw during lessons.

Attach the optional Epson ELPIU03 interactive unit to make any surface interactive - no screen required. This function also allows you to create and save notes with a digital pen, included with this unit.

Engage audiences with the built-in 16W speaker and microphone input, and enjoy high-definition content with the HDMI input. Aligning the picture takes just seconds with the vertical and horizontal keystone correction, unique to Epson in the short-throw category.

Schools can make savings thanks to the EB-430 and EB-420's low total cost of ownership. Their Epson E-TORL lamp produces more light using less energy, and lasts 6,000 hours in eco mode – a long lamp life only Epson has achieved. The filter also has a long life of 5,000 hours for years of trouble-free operation. Further reducing costs and maintenance time, the projectors can be connected to a network to enable remote control and monitoring of lamp life, temperature and more.

## KEY FEATURES

- Short-throw projectors ideal for use with interactive whiteboards
- Optional ELPIU03 Interactive Unit for captivating presentations
- Easy set-up with vertical and horizontal keystone correction
- Long lamp life of 6,000 hours

The Epson teaching solution: connect the projector to the ELPCB01 Control and Connection Box for easy access to switches. The tailor-made ELPMB27 Wall Mount reduces installation-time.
