For business presentations

For classrooms

For home theater

The Panasonic PT-LM1U weighs 3.5 lbs and is just 10-3/32˝ wide by 8-7/32˝ deep; its footprint is slightly smaller than an ordinary business magazine. But don't let the small size and light weight fool you, the PT-LM1U is feature-packed and engineered to deliver exceptional performance. It provides you with a brilliant 1200 lumens of brightness and offers superior ease of use from the moment you power up. Of course, it also displays DVD and other video sources with excellent image quality. Offering outstanding performance optimized for mobile use and made easy enough for anyone to operate, the PT-LM1U is an extremely handy projector. If you currently use a notebook PC or DVD player, the PT-LM1U is made for you.

The PT-LM1U is extremely simple to operate, even if you've never used a projector before, for stress-free presentations or home theater entertainment. And it is small and light enough to bring it with you to your customers or friends—whatever you want to do, the PT-LM1U makes it easy.

Neatly-arranged controls are all on top.

Lightweight and Compact
- *Easy-to-carry*
- *Easily slips into a bag*

Secure
- *Anti-theft features and lock-out functions*

Mobility

High-Performance
- *Mobile, easy-to-see presentations*
- *Ideal for home theater use*

Time-Saving
- *Speed start for instant presentation*
- *Direct power off for quick removal when finished*
Lightweight and Portable >>

Ultra-Lightweight: Only 3.5 lbs
Weighing approximately 3.5 pounds, the Panasonic PT-LM1U won't make you feel over-loaded, even when carrying it along with a note-book PC. The PT-LM1U the logical choice for mobile presentations.

Space-Saving Compact Body
Just 10-3/32 inches wide by 8-7/32 inches deep, and only 2-11/32 inches high, the PT-LM1U slips easily into a bag or briefcase. Its compact size and minimal weight make it pleasingly portable and minimizes the space required during presentations or storage.

8-7/32˝   10-3/32˝   2-11/32˝ *

* Height including legs: 2-11/16˝

High Performance >>

Bright 1200 Lumens
Thanks to a high-performance optical system and high-efficiency 130-W UHM™ lamp, the PT-LM1U delivers super-bright pictures with 1200 lumens. Sharp, crisp images are easy to see.

Projector AI*
Using artificial intelligence, the PT-LM1U instanta-neously adjusts the brightness of the lamp to optimize on-screen imaging. For darker scenes, it automatically lowers the brightness to produce deeper blacks and make light areas stand out. This improves overall image quality and heightens your enjoyment of DVD and other video program-ming.

* In high lamp power mode.

Time-Saving >>

Speed Start
Speed Start slashes the time it takes to get your presenta-tion under way. The image appears in approx. 5 seconds after you press the power but-ton. Behind this breakthrough is Panasonic's high-precision lamp and lamp power supply—an advantage made possible by our advanced production technology.

Direct Power Off
When the presentation is completed, Direct Power Off lets you disconnect the power cable and move the projector right away* because the cooling fan keeps operating until the lamp is cooled.

* Note: The projector cannot be placed into a bag until the cooling fan stops operating.

One-Touch Auto Setup with Digital Keystone Correction
This function assures quick and easy setup. The projector handles the basic image adjustments, from phasing to vertical and horizontal position. Vertical digital keystone correc-tion is also done automatically.
Secure >>

Anti-Theft Features
The PT-LM1U is designed with effective anti-theft features, including a user password, control panel lock and text superimposing. It also has a security lock slot compatible with the Kensington MicroSaver® cable.

User Password
When the projector power is turned on, a screen appears prompting you to enter the password. Unless the correct password is input, nothing but the power button can be operated. The password can be changed as desired.

Control Panel Lock
Using a setting on the on-screen menu, you can disable the oper-ation of all the pro-jector's controls. This setting can only be canceled with the supplied card remote control. By simply storing the projec-tor and remote control separately, you can thus prevent unauthorized use.

Text Superimposing
You can program a text line to be superimposed on the bottom of the projected image. This helps to deter theft by continually displaying, for exam-ple, your company name, URL, or a warning of your choice.

More Convenience >>

Auto Power Off
This lets you specify a time (from 15 to 60 min-utes, in 5-minute steps) after which the projector automatically enters standby mode if unused.

More Valuable Features
- HDTV compatibility
- Full compatibility with sRGB color space for accurate color reproduction (in natural mode)
- Color temperature selection (standard/high/low)
- Picture mode selection (standard/dynamic/natural)
- Projector AI on/off
- Still mode
- 3x digital zoom
- Index Window
- Freeze
- Shutter function for image and sound muting
- Selectable 8-language on-screen menu (English, German, French, Spanish, Italian, Russian, Chinese, Korean)
- Discrete S-Video and video inputs allow connection of two DVD/video sources at a time
- Card remote control
- Handy card remote control holder on the bottom of the projector
- Ceiling mountable (option)
- Lamp power high/low selection
- Fan control for high elevations (above 4,600 feet/1,400 m)
- Temperature warning indication
- Lamp replacement warning indication
Supplied card remote control
