## MULTIMEDIA DATA/VIDEO PROJECTORS

*Changes for the Better*

# Entry level, yet high performance.

**NEW**

### Mobile XGA **XD210U**

New DLP® chip, 2000lm of brightness and weighs less than 6.0 lbs

The XD210U/SD210U combine the features of an advanced DLP® (Digital Light Processing) chip, a newly developed optical engine and a high-efficiency 180W light source lamp to produce an incredible picture with rich and vibrant colors. Additionally with its compact and lightweight design, the new XD210U/SD210U allow you easy portability and quick setups for those presentations on the go.

#### Detachable Keypad

The keypad\* can be removed from the projector to be used as a remote control. Since the keypad is used to control the projector, detaching it also doubles as a key-lock function preventing others from making adjustments and helps discourages theft.

\* An extra remote keypad is included with the XD210U/SD210U should the original keypad get lost.

### Mobile SVGA **SD210U**

#### Anti-theft Security Hook

An anti-theft security hook\* is built into the projector to help prevent theft and any unauthorized removal of the projector.

\* Mitsubishi Electric cannot accept responsibility for thefts occurring despite use of this safety feature.

#### Instant Shutdown

Once your presentation is over, you can simply hit the power button, disconnect the XD210U/SD210U and go off to your next task. Engineered with the instant shutdown feature there is no longer any awkward idle time waiting for the projector to completely power off. Now there is no longer any shut down delays and now your projector can keep up with your busy presentation schedule.

#### Easy Setup

Auto Search function displays the connected input sources automatically. Users don't have to get distracted by ensuring the appropriate source is manually selected. Also, +/-20 steps of vertical keystone correction and 1.2x optical zoom gives users a greater flexibility of positioning.

#### White Intensity

Users have the flexibility to adjust the light intensity of the whiteness of the color wheel of up to 11 levels. Allowing users to configure the overall brightness and picture parameters tailored to their individual preference.

- Optimum high-contrast picture quality, to brighten up PC images.
