

EPSON PowerLite® 8150i

Powerful presentations made easy

Send show-stopping presentations to the EPSON PowerLite 8150i from any Windows® 9x/ME/NT/2000 computer on your LAN. Then, when you get to your meeting, just power on the projector and present. Epson's EasyMP.net technology will change the way you use, manage and maintain your presentation systems. No more swapping video cables or worrying about compatibility. Pre-load your presentations or switch between multiple files. You can even customize your presentations by rearranging images before the presentation. Or, add notes and annotations as you go. Maintaining the projector is just as easy. Check on the status of the bulb or the projector power supply via your office PC. With the EPSON PowerLite 8150i, you get convenience, compatibility and advanced features without sacrificing image quality.

At 3200 show-stopping lumens and crystal clear XGA resolution, it delivers bright, brilliant results, even in large rooms with a lot of ambient light. Our three-LCD design produces dazzling colors across the screen while a 400:1 contrast ratio makes even the finest print easy to read. And, at 20 lbs., this portable projector gives you the option of transporting it from room to room or installing it in your conference room. Choose the EPSON PowerLite 8150i—the flexible network solution from the world leader in high-performance projectors.
