PJD5150

The ViewSonic LightStream<sup>™</sup> Projector PJD5150 is the ultimate price-performance projector, integrating elegant style and intuitive design, VGA connectivity and best in class colour performance thanks to exclusive SuperColor<sup>™</sup> technology. The PJD5150 is equipped with 3,100 lumens brightness, a 6-segment colour wheel, standard resolution 4:3 (SVGA 800 x 600) and 18,000:1 contrast ratio for great image quality even in spaces with high ambient light. Eco mode further reduces power consumption by up to 70% and extends the lamp life by up to 10,000 hours.

### **Premium Curved Design With Intuitive Keypad**

With its dot texture finish and curved edges, this LightStream Projector stands out from the competition. A tactile keypad provides ease of use with raised and concave buttons, plus a central reference button. These

assist in making set up easier in dark environments or if the projector is ceiling mounted.

# SuperColor<sup>™</sup>: Best in Class Color Accuracy

ViewSonic's exclusive SuperColor<sup>™</sup> Technology offers a wider colour range than conventional projectors for true-to-life color performance in any light. SuperColor<sup>™</sup> 6-Segment Color Wheel maximizes brightness with the highest colour saturation over others in the same class.

# **Bright Images for Any Environment**

Packed with 3,100 lumens the PJD5150 is guaranteed to produce bright images in any environment – even in rooms with high ambient light. An impressive 18,000:1 contrast ratio also ensures that dark and bright areas are more black and white and less grey in appearance.

#### **Easy-of-Use Pre-Set Colour Modes**

Providing 5 pre-set colour modes, users can choose the best one to suit their material. These 5 modes are: Brightest Mode for environments where extra-high brightness is required; Dynamic Mode for presentations with a lot of text; Standard Mode for matching PC or notebook colour; ViewMatch Mode for general viewing; Movie Mode for watching movies with better saturation in a dark environments.

#### **Quickly Access Your Favourite Features With** "My Button"

Finding a function through the on-screen menu can be time-consuming. The "My Button" button on the remote control is a programmable shortcut button that can be user-programmed to launch any desired function.

## Auto Power On / Off

With Auto Power On enabled, once a VGA cable is connected and signal detected, LightStream projectors will power on automatically with effortless start-up.

# **120Hz 3D Compatible for Exciting Visual Effects**

You'll have amazing 120Hz 3D capabilities at your disposal with this LightStream Projector. All that's required to unlock this stunning 3D are optional ViewSonic 3D active shutter glasses (PGD-350) and a 3D source.

#### **Keystone Distorted image correction**

The PJD5150 can correct and adjust vertical distorted images into a more symmetric shape.

# **Hide Unsightly Cables**

An optional cable management hood connects onto the back of the projector to hide unsightly cable clutter and exposed ports.

#### **Technical Specifications**

Product
