MH750

Business Projector

The BenQ MH750 is a projector designed to deliver great value for customers demanding image quality, ease of use and a low total cost of ownership (TCO) all at a competitive price. The projector features Colorific, a high brightness of 4500 ANSI Lumens and a high contrast ratio which ensure presentations always look colorful, accurate and crisp. The projector delivers flexibility and ease of use through its keystone correction and corner kit capabilities. Total Cost of ownership (TCO) is kept to a minimum by the projector's innovative Smart Eco, EcoBlank and Auto Power Off features.

Fantastic Image Quality

When delivering a fantastic presentation is what matters most, the BenQ MH750 delivers. BenQ projectors deliver the very best color performance on the market through Colorific, a proprietary technology powered by Texas Instruments Digital Light Processing (DLP) which delivers over a billion colors. Color performance is complemented by 4500 lumens of brightness and a 1080p resolution which ensure images being presented are clear and impactful even in large rooms with variable lighting conditions.

Easy to Use

For busy professionals, time is of the essence and the BenQ MH750 comes loaded with features to save time and increase efficiency. 2D keystone correction and Auto Vertical keystone correction allow the user to quickly adjust an off-center image and get their presentation underway without having to center the projector. Corner fit gives the user the flexibility to quickly overcome challenges associated with a restricted or uneven space. The instant restart feature allows the presenter to quickly restart the projector and resume their presentation if the projector is accidentally switched off. The MHL connection allows a user to quickly and easy share documents on their smart device by connecting to the projector and the Q Cast feature allows the user to wirelessly stream videos, documents and more. The built-in booming 10 watt speaker allows the user to deliver an engaging presentation without the need to bring along accessories.

Low Total Cost of Ownership

BenQ is committed to saving businesses money and saving the environment, and the MH750 comes equipped with features which reduce power consumption and deliver an unbeatable total cost of ownership (TCO). The Smart Eco functionality in the projector helps reduce power consumption by up to 70% by optimizing the brightness level. The Eco Blank allows the presenter to temporarily blank the image and activate again immediately when needed, reducing power consumption and extending lamp life. Maintenance is also simplified by the upper lamp door, which greatly reduces the amount of time and effort required to change a lamp, further reducing the total cost of ownership (TCO).
