

# EB-2142W

## DATASHEET / BROCHURE

Deliver great presentations with a display solution that offers a great brightness of 4,200 lumens and a scalable image size of up to 280 inches.

Bring sharp images and bright colours to any meeting room with our super-bright new business projector, which offers a great brightness level of 4,200 lumens, as well as HD-ready WXGA resolution. The EB-2142W is designed to display a scalable image up to a massive 280 inches, and offers connectivity options such as wireless LAN as standard.

### Up to 280-inch display and outstanding quality

HD-ready WXGA resolution combined with Epson's 3LCD technology ensures high-quality content has more vivid colours and brighter images. HDMI connectivity guarantees sharper and clearer content, even at the maximum image size of 280 inches.

### Simple set-up and connectivity

Offers auto power-on and an array of connectivity options including two HDMI connections and built-in wireless LAN connectivity to stream content from laptops or mobile devices. Compatible with iProjection<sup>1</sup> software for easy connectivity and content sharing.

### Keep costs down

Project for longer with improved reliability and a longer lamp life of up to 12,000 hours in eco mode.

### Home screen

The home screen offers quick and easy access to a variety of useful functions, such as choosing connection sources. Wireless connections can also be made easily using the information on screen.

### Value added flexibility

The Multi-PC projection software bundled with the EB-2142W makes it possible to connect with up to 50 computers and partition the screen for split-screen projection capability - offering far better cost-effectiveness and flexibility than a flat-panel display.
