

HS102

Stylish and luxurious
the noble black and flaming red design will be your pride and joy.

The most advanced illumination, using a LED-based digital light source

Super Color and Image Quality

Wider color range & deeper color saturation.

The ultra-fast pulsing of the LED light eliminates motion blur and color break up ("The Rainbow Effect")

Lamp Type

LED Lamp-based HS102

Lasts Forever

Unlike conventional Lamp-based projectors, the HS102's LED lamp never needs to be replaced.

Conventional
Lamp-based projector
Lamp Life : 2,000~4,000Hrs

LED
Lamp-based HS102
Lamp Life : Min 30,000Hrs

Real Quick ON & OFF

The LED Lamp enables the HS102 to achieve full brightness within 5 seconds, as there is no bulb warm-up time. Of course, it turns off instantly as well.

HS102, True Meaning of Mobility

Enjoy your favorite media using a USB connection, without the need for a power cable and AV devices. And, of course, it's very light and compact! Weighing only 780g, and measuring in at 117 x 50 x 154 mm.

*HS102's DivX Supports
Movie : avi, DivX, mpeg, mpg
Photo : jpg
Music : mp3

USB Input

Embedded DivX 

The HS102 comes complete with DivX, which enables the HS102 to play movies, mp3s and view photos, without the need for any other device.

External Battery

The HS102 can operate for 2 hours powered by the external battery.

*The External Batter is an optional accessory.

1W Built-in Speaker

The HS102's embedded speaker allows you to enjoy your music, without the need for any other audio device.

160ANSI? It's all you need!

The HS102's screen brightness of 49cd/ (with a screen size of 60" and a projection distance of 1.6m) is bright enough to show any picture clearly.

Environmentally Friendly

The LED Lamp consumes less power.
 The LED Lamp is also 100% free of mercury and, as the bulb never needs to be replaced, there are no discarded bulbs.
