Easy multimedia

Combine high-quality images, video and animated text into your presentation with the Epson EB S6/X6/W6 projectors. For impactful presentations that really make a difference to your teaching, the Epson EB S6/X6/W6 projectors are light weight, highly portable and enable you to move quickly between rooms. You can set up easily and project from a range of positions in the room.

Affordable, compact and attractively designed, the Epson EB-S6, EB-X6 and EB-W6 projectors offer a choice of screen resolutions, all with stunning 2000:1 contrast ratio. Our 2-in-1 USB Display technology simplifies installation and makes remote control of slideshows easy. These projectors are also fully compatible with the latest digital whiteboards.

Epson EB *S6/X6/W6*

3LCD

A/V mute slide - instantly cuts both the projector beam and the sound, enabling the audience to focus entirely on you.

Direct Power On/Off - With a warm-up time of only 5 seconds, these projectors are very convenient when working in small groups. Cooling down is even faster: once you've finished just unplug the power cable and off you go.

Clear sharp images - Epson 3LCD technology results in stunning image quality, which is unprecedented for such affordable projectors.

Exclusive USB Display

The easiest way to project from a PC

A single USB cable, connecting the projector to your PC, combines the functions of display and Page Up/Down, halving the wires you need. With the projector remote control, you can navigate through a slideshow wirelessly as you walk around the room.

2-in-1 USB

Totally secure

As these projectors can be ceiling-mounted, their security is obviously a concern. The Epson EB S6/X6/W6 projectors include a reinforced security bar and hole for a Kensington lock. Password protection and a control-panel lock make these projectors perfect for use in schools.
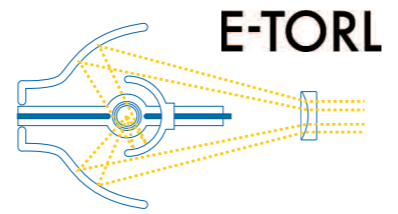

Automatic Vertical Keystone

Achieve a squared image instantly and easily by adjusting distortions up to ± 30° vertically (Manual Keystone for Epson EB-S6).

Economical and ecological

Epson projectors are designed and manufactured according to our strict Environmental Management System, which is based on ISO 14001. The Epson EB-S6, EB-X6 and EB-W6 projectors operate on reduced power and incorporate innovative environmental features.

E-TORL lamp - this gives clear visibility even in light rooms. With a lower power consumption compared to traditional lamps, the E-TORL lamp can last up to 3000 hours in high brightness mode, and up to **4000 hours** in low brightness mode.

E-TORL

Epson EB *W6*

This projector is ideal for large screen presentations with digital pictures, videos and DVDs.

WIDE

Wide screen
The wide image (30% more pixels than XGA) is most effective on modern WXGA laptops.

Multimedia features
• **HDMI interface** - for top quality audio/video digital input
• **7W speakers** - for comfortable sound that can fill a medium-sized room.
• **USB slot and SD card reader** - for easily setting up slideshows and presentations without connecting to a computer.

Remote control
With all the controls you need to navigate the extra digital A/V functions and comfortably browse your picture files.
