### Outstanding Presentation Functions

#### Compact and Lightweight Design for the Presenter on the Go! Keeps your presentations right on hand!

This compact and lightweight microportable projector is packed with functions that are ideal for the roadwarrior presenters who are always on the go.

#### Auto power off

This energy-saving function automatically switches the unit power to off when no input signal is being received for a set time.

#### Quick cooling

With this time-saving feature, conventional power off projector cool down time is shortened by two-thirds. This reduces the long awkward idle time waiting for the projector to completely power down. Now your projector can keep up with your busy schedule.

#### Wall screen

Projects natural color images not only onto white or black boards, but beige, light blue, light green or pink walls as well.

#### High altitude mode

Adjusts fan speed and other necessary settings to ensure proper projector operation even in high altitude environments.

#### Password Lock Security

Includes password lock security to help prevent any unauthorized use of the projector.
