Highlights

Advanced LED Light Source

The powerful LED light source displays rich, vivid colors and will last up to 30,000 hours. You won't need to replace it, it lasts 20 years if used 4h per day! In addition, the power consumption is far lower than a regular lamp based projector: a bigger screen, an immersive experience with an eco friendly device!

Focus adjustment

Place your projector at any distance and adjust the focus to fine-tune images to your needs.

Project images up to 80"

Project images and videos up to 80" (200cm) from less than 2 meters from the wall.

Built-in Media Player

Pop your essentials in your hand with the integrated Media Player: Browse, watch all your videos, listen your music or share your latest holidays pictures.

Fully Connected mini HDMI, USB

Play all your videos, pictures and audio files from the mini HDMI or the micro USB port. Connect any media streamers or sticks like Amazon Fire Stick, Apple TV. The device can also be charge at the same time thanks to the dedicated USB cable.

Wi-Fi screen mirroring

Connect your mobile devices such as a tablets, smartphones or even computers wirelessly to mirror and share all your contents. Videos on your phones? No worries, just cast it through Wi-Fi! (IOS, Android, Mac and PC)

Entertainment on the go

Brint it from room to room or to your friends.

Built-in speaker

No need for extra sound system, the built-in speaker enables the performance you need in a small package.

3.5 mm audio jack

Connect any headphones or external powered speakers with the built-in 3.5 jack to add a wider sound experience.

Pocket-friendly

A palm-size projector always in your pocket or bags catering on-the-go traveler and wild addict. Throw huge image on any walls, ceilings, ground and even on your tent!
