Projectors

Laser Projector

A New Type of Projection Experience — Only from Epson.®

Stunning Picture Quality up to 150" — Delivers an immersive viewing experience for TV shows, sporting events, gaming and movies – for an amazing Full-HD picture.

Ready for Streaming¹ — Connect your preferred streaming solution such as an Apple TV®, Roku, Amazon FireTV, or Android TV to the built-in HDMI® port and you're ready to start streaming your favorite content¹ – easy!

Integrated Dual-Speaker Audio System — The internal configuration includes one speaker for high frequencies and a bass-reflex speaker dedicated to low frequencies for an outstanding audio performance.

Elegant, Compact Design — Designed with simplicity in mind, the Epson EpiqVision EF11 Mini Laser Projector has a clean, compact, and modern design, allowing you to take it virtually anywhere.

Epson MicroLaser Array Technology — Unique multi-array laser diode technology produces an exceptional level of brightness while significantly enhancing the black density.

Advanced Scene Adaptive Color Correction — Automatic scene-based color correction produces a clear and natural picture – regardless of the content being played.

True 3-Chip Projector Design — Advanced 3LCD technology displays 100% of the RGB color signal for every frame. This allows for outstanding color accuracy while maintaining excellent color brightness, without any distracting “rainbowing” or “color brightness” issues seen with other projection technologies.

Auto Picture Skew Correction — Depending upon how you orient the projector to the wall, the projector will analyze the projected image and correct the vertical geometry of the picture for a beautiful viewing experience.

Single HDMI Input — Standard HDMI input for both video and audio.

Award-Winning Service & Support — Standard 2-year limited warranty, full-unit replacement, along with free technical phone support for the life of the product.
