

PK100

Imagine Your Personal Media the Size of Your Home Cinema – Anywhere

View video and images from personal media players, mobile phones, PDAs, cameras and gaming devices with ease and without recharging the battery for up to 2 hours.

Smaller than many digital cameras and smart phones, the Optoma PK100 Pico Pocket Projector enables users to share images and videos from their media devices at sizes up to 60" – incredible from a device small and light enough to be comfortably carried in a pocket or handbag.

Based upon the latest LED illumination advances and DLP® imaging technology, Optoma's PK100 Pico Pocket Projector combines clear, vivid, high contrast images with long-lasting durability and simple operation.
