# VPL-VW365ES

## Sony Compact 4K Home Theater ES Projector

Advanced SXRD panel technology delivers incredible 4K images with four times the resolution of Full HD. You'll experience rich colors and impressive 1500 lumens brightness for vibrant, detail-packed pictures with native 4K resolution that always look clear and sharp, even in day lit living rooms or in 3D.

### **Bullets**

- Native 4K resolution<sup>1</sup> for immersive experience
- HD to 4K upscaling<sup>3</sup> turns your HD content into a 4K experience
- HDMI® 2.0 and HDCP 2.2 compatible for enjoying up-to-date 4K content services
- High brightness of 1,500 ANSI Lumens
- Compact size and front exhaust for flexible installation
- Powered 2.06 zoom and wide lens shift
- Built in RF emitter for 3D viewing<sup>2</sup>
- Whisper quiet fan
- 3-year limited warranty
- Low latency mode for gamers

#### **Features**

### Cinematic 4K clarity with four times the detail of Full HD

SXRD panel technology featured in our professional cinema projectors delivers native 4K (4096 x 2160) resolution images, with no artificial pixel enhancement. Every detail is clear and natural, without jagged edges or visible pixels.

## High brightness and contrast

With an impressive 1,500 lumens brightness and spectacular contrast, 4K images are clear with bright highlights and rich, deep blacks — even in well-lit rooms.

# Smooth, fluid on-screen action

Coupled with the panel's super-fast response rate, Motionflow™ technology means you'll see every detail with minimal blur — no matter how fast the action.

## TRILUMINOS™ Display for wider, more natural colors

Sony's TRILUMINOS™ Display technology accurately reproduces a much broader range of colors than a standard projector system. You'll see the difference with finely-reproduced tones and textures plus greater color purity, depth and realism.

## Support for latest standards

The VPL-VW365ES can project content at up to 60 frames per second (fps) in 4K (at color signal YCbCr 4:2:0 / 8 bit) for even smoother images with superior color and realism. Support for HDCP 2.2 lets you enjoy the latest 4K content services.

## Reality Creation upscales movies to 4K3

As well as projecting native 4K content, the VPL-VW365ES upscales your Full HD Blu-ray™ or DVD movie collection to 4K with Reality Creation — Sony's Super Resolution processing technology that enhances lower-resolution content, and even upscales 3D movies to 4K resolution.<sup>3</sup>

# Compatible with 'Mastered in 4K' Blu-ray™

Enjoy a near-native 4K experience with discs 'Mastered in 4K'. It's as close as you can get to the 4K-pixel resolution and expanded color range of the original.

## Long-lasting lamp

Up to 6000 hours rated lamp operating life (in Low mode) means simpler maintenance, with fewer lamp swaps and reduced running costs.

## Flexible home installation with wide zoom and shift lens

The powered zoom lens with a 2.1x zoom ratio and wide lens shift range gives greater installation flexibility in any room size, even with high ceilings.

# Front-facing fan

With the fan exhaust positioned at the front of the projector, you don't need to worry about wall clearance and room for air inhale/exhaust when installing. This helps maximize throw distance, for the biggest possible projected images.

### **Built-in auto calibration**

Set-up is quick and easy: auto calibration ensures superb pictures without effort.

# Industry standard RF 3D<sup>2</sup> compatible

The projector's built-in RF transmitter synchronizes with any RF 3D<sup>2</sup> glasses for wider coverage and greater stability, so there's no need for an external transmitter.

## Whisper-quiet fan

Forget that the projector is even in the room due to the advanced air discharge system.

## 3-year limited warranty

All Sony Elevated Standard (ES) projectors enjoy 3-year limited warranties.
