PJD5351

LIGHT, BRIGHT AND VERSATILE DLP PROJECTOR

WITH EXTREME SHORT-THROW LENS

Short distance - big presentation

The powerful PJD5351 sets the stage for a new generation of versatile projectors equipped with BrilliantColor™ technology and an extreme short-throw ratio – producing a 60" image at a distance of only 1.1m away. With its short-throw lens, the PJD5351 saves space by allowing you to place it at the front of your table and still display large, crisp images. Weighing in at just 2.5kg with 2500 ANSI lumens and a 2400:1 contrast ratio (with DCR), it's easy to give multimedia lessons in the classroom or dynamic presentations in the boardroom. Multiple preset presentation modes, an increased 40 degree digital vertical keystone correction and digital zoom ensure the best possible image regardless of location. With up to 4000 hours of lamp life*, low-cost replacement lamps, filter-less design and a non-degrading DLP® light engine, the PJD5351 has one of the lowest total cost of ownership ratios in the industry.

Versatile presentations anywhere

> **Short-throw lens for large, stunning images in small spaces**
  The short-throw lens enables large images to be projected from short distances in small rooms. A screen size of 1.5m is possible from just 1.1m

> **Advanced connectivity**
  In addition to standard connectors, this projector provides two RGB inputs to easily switch between presenters and an additional RGB output to connect to an ecxternal monitor.

> **Bright in virtually any setting**
  Packs 2,500 ANSI lumens in just 2.5kg, and with a high 2400:1 contrast ratio (with DCR), your presentations are guaranteed to be vibrant even in the brightest office environment.

> **BrilliantColor™ technology**
  Latest BrilliantColor™ Technology delivers stunning all-digital clarity with life-like color, sharp graphics and outstanding video. The sophisticated 6-segment color wheel enriches the yellow colour performance that is key to accurate and vivid colour reproduction.

> **Eco-mode extends lamp life**
  Extend the life of your lamp up to 4000 hours* and reduce noise output to a whisper quiet 27db.

> **Off-to-Go feature**
  The direct-off feature allows the busy presenter to simply unplug the projector and go without waiting for the usual cool down phase. This feature also protects the lamp from sudden power blackouts.
