

PowerLite® L890U

8,000-Lumen WUXGA 3LCD
Laser Projector

**Experience an ultra bright
and compact projector
with pro-level features.**

Ultra bright, true-to-life images — 3-chip 3LCD technology and 8,000 lumens of equal color and white brightness²

Full HD WUXGA resolution — accepts up to 4K signal and provides 1920 x 1200 resolution for vibrant, high-definition images

Large, versatile display options — easily create a display up to 500" diagonal in 16:10, plus ultra wide 16:6 and 21:9 aspect ratios for enhanced content display and visibility

Simplified installation — compact and lightweight design featuring wide vertical and horizontal lens shift, 1.6x optical zoom, 360-degree mounting, built-in geometric correction tools and a universal VESA mounting pattern

Low maintenance — up to 30,000-hour laser light source and air filter³ in Extended Mode

Wireless networking and content sharing⁴ — Wi-Fi® 6/6E allows for fast, reliable wireless connectivity for screen casting⁴, along with direct connection to the cloud-based service, Epson Projector Management Connected and WPA3-Enterprise security

Built-in NFC⁵ — reduces installation time of multiple projectors; read and write setting information using the Epson Projector Config Tool app

Optional attachable PixAlign™ camera — adds powerful multi-projector tools including screen matching⁶, auto color calibration⁶, blending assist⁷ for super wide displays and simple stacking⁷ without an external PC

Over-the-air updates⁸ — allows user to optionally be alerted when a Firmware update is available

Enhanced connectivity — HDBaseT® and HDMI® two in and one out for daisy-chaining and signal monitoring

1 4K Enhancement Technology shifts each pixel to surpass Full HD resolution on screen. | 2 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118. | 3 No required maintenance for the light source and filter for up to 30,000 hours (Extended Mode) or 20,000 hours (Normal Mode). Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m³ of particulate matter. Time varies depending on usage conditions and environment. Replacement of parts other than the light source may be required in a shorter period. | 4 The projector supports direct peer-to-peer wireless casting of local content from Miracast-enabled devices or via the Epson iProjection app. For best performance when using Epson iProjection, it is recommended that the projector and connecting devices be configured on a network, either through the Ethernet port on the projector or via a wireless connection. The Epson iProjection App does not support all files and formats. See epson.com/iprojection for details. | 5 NFC requires use of a device that includes NFC and may require additional software. | 6 Using separate camera for each projector. | 7 Requires Epson external camera for each projector and may require Epson Projector Professional Tool app. | 8 Requires an active Internet connection for alerts and Firmware download. | 9 Split Screen feature requires remote control. Consult your user manual for input combinations. | 10 For convenient and reasonable recycling options, visit epson.com/recycle | 11 SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency. | 12 Product comes with a 3-year limited warranty with the option to purchase Extended Service Plans up to a total of 5 years of continuous coverage. Extended Service Plan can be purchased at any time that you are covered under an Epson limited warranty or Epson Extended Service Plan. See individual service plan for details. | 13 Expedited shipping not available in all areas. Orders must be placed and processed by 1 p.m. Pacific Time, Monday through Friday, excluding holidays.
