Carrier 15 Specs: 708 (H) x 596 (W) x 340 (D) mm | 29 kgs

PC Locs makes life easier.

Baskets by PC Locs.

These aren't your typical baskets. Slotted Device Baskets by PC Locs make device deployments faster, safer and more efficient. Each basket can hold up to 5 devices.¹

Organised Cables and Hidden Bricks.

Minimise cord chaos by keeping those cables secure once and for all. Cables stay organised in the unique top channel, allowing you to plug in devices quickly after each use. Power bricks are stored in a separate compartment, hidden from sight.

Wall or Desk Mountable.

The Carrier Charging Stations are designed to adapt to your surroundings. Transform any wall or counter into a secure area for charging mobile devices while taking up only minimal space.

Easy Cable Management.

PC Locs cable management has been simplified so that you can wire an entire Charging Station in minutes. Save time with set up and gain time using your Charging Station.

Smarter Workflow

Save Time, Save Dough. Our goal is to save you valuable time, each and every day, thus saving you some serious cash. Our Baskets enable you to hand-out and pack-up devices in less time, allowing you to forget about charging and focus on your goals.

Perfect for Shared Use. Not enough devices to go around? No problem. Organisations can now easily share mobile devices between rooms without the fuss. Simply grab a Basket or two of devices and transport them safely and easily to just about anywhere you want to go.

Additional Key Benefits

Robust Warranty.

Should any issues arise, our products are backed by a robust warranty and supported by a dedicated customer support team.²

World-Class Customer Support.

Our helpful and friendly Customer Support team will promptly assist with any product related questions that may arise.

Compatible & Efficient. Includes two or three large Baskets to hold devices up to 13" as well as a stainless-steel device rack for storing devices up to 17" with or without cases.¹

Future Proof. Think inside the box, and you won't be stuck with a bunch of outdated charging stations. Removable racks and Baskets allow this station to adapt to future needs as devices change or new technology is added.

Small Footprint. Easily place the charging station on a counter or mount it to the wall. Either way, the Carrier Charging Station takes up minimal space.

Distribute devices upstairs or over rough terrain.

Baskets by PC Locs allow you to share and safely distribute devices between multiple locations within your facility. The Baskets are interchangeable with PC Locs Carts that use the same Large Basket ecosystem.

Secure. Protect your device investment without worry. Lock away devices in the storage area with a padlock.

Built to last. Carrier Charging Stations are made with high-quality, welded steel and are backed by a robust warranty.²

Lock Included. This charging station comes with a high-quality, stainless steel padlock and keys.
