PC Locs makes life easier.

High Device Capacity, Small Footprint.

For areas that are tight on space but need to charge, store and secure a greater amount of devices, the Revolution Carts are just the ticket. The small and compact design of the carts are perfect for space strapped areas.

Under the Hood. Bricks and cables are hidden in the spacious top compartment keeping them secure yet easy to access. Charging cables hang down in front of devices, allowing users to plug them in quickly and easily after each use. Because cords drop down from individual holes, they will never become tangled.

External Charging Status Display.

The remote controlled ECO Safe Charge™ Power Management System charges multiple laptops safely and efficiently. External lights allow you to easily see if your devices are charging.

Flexi Power System. Designed to accommodate a variety of devices on the market, these power strips slide on a track to make space for just about any type of device cords or power bricks.

A Smarter Use of Space and Time

Small Footprint, Big Power. Tight on room? You no longer have to give up valuable space to accommodate a large number of devices. The Revolution Carts pack as much charging power and capacity as a traditional Charging Carts, yet takes less space.

Quick and Easy Access. The Revolution Carts are perfect for workflow environments where devices are constantly being used and accessed. Dual-sided devices access means device retrieval and returns are done quicker and easier.

Additional Key Benefits

Robust Warranty. Should any issues arise, our products are backed by a robust warranty and supported by a dedicated customer support team.²

World-Class Customer Support. Our helpful and friendly Customer Support team will promptly assist with any product issues or questions.

Compatible & Efficient. Larger devices never have to feel left out. The Revolution Carts can accommodate devices up to 17", with or without cases.¹

Numbered Slots. For better device management, label each slot with a numbered sticker which is included with the Revolution Carts.

Safe Power Management. Never blow a fuse again. ECO Safe Charge™ handles power requirements of almost any device by staging the availability of power.

Secure. Protect your device investment without worry. The stainless steel locking bar together with the hardened steel padlock will ensure your devices are locked and secured.

Timed Charging Modes. Set the Eco Timer to turn off availability of power after a set amount of time. You'll see a reduction in energy consumption, carbon emissions and energy bills. Plus, devices will never be overcharged, increasing the longevity of their batteries.

Tough as Nails. The Revolution Carts are made with high-quality steel that will withstand the test of time, and it's backed by a robust warranty.
