65" – 300" Projection Size

Create the ultimate viewing experience. This projector adapts to any screen size from 65" to 300", so you can project onto a wall in your living room or a gigantic screen in your backyard.

Lens Shift

Calibrate your projector to your ideal viewing position with a Lens shift that can shift image $\pm 46\%$ horizontal and $\pm 130\%$ vertical. It delivers the best image quality at the maximum possible performance.

7 Levels IRIS

The XR10 delivers clearer, sharper projection with more detailed shadows and deeper blacks in any lighting condition and at any screen size, thanks to 7 levels of IRIS control and 2 preset IRIS modes.

Auto Keystone Correction

Delivers precise, sharp, proportionate projected images without manual adjustments for the ultimate viewing experience and flexible placement.

Auto Screen Adaptation

Automatically identify the screen and adjust the image to fit the screen. Optimize display without the need for manual adjustments, enhancing usability and accessibility.

4K & 4K Upscaler

Bring what's on screen into crystal-clear focus. Our 4K AI Upscaler transforms the low-resolution content into striking 4K quality. It's amazing what can happen when every pixel works even harder.

6000 ANSI Lumens Bright

View whatever you're watching in 6000 lumens of brightness, be it deep shadows or bright highlights. Your picture is that much more compelling when you're taking it in with maximum vibrancy and detail on giant size.

0.84-2.0:1 optical zoom

Zoom in or out without moving the projector. The 2.38x optical zoom delivers clear, sharp, and vibrant images without pixel loss, while digital zoom provides additional flexibility.

Seamless Auto Focus

Keep the image looking sharp and clear, no matter the distance between the projector and the screen. This feature also minimizes shaking or any minor movements.

Smart OS

Stream your favorite series and the latest movies directly to your projector. Watch all the hottest picks from Netflix, YouTube, Disney+ and more.
